Annuaire Statistique 2015
du Secteur Développement Rural

Juin 2016
LISTE DES TABLEAUX

Tableau 1 : Répartition de la population par région selon le genre en 2015 ............................................. 10
Tableau 2 : Population agricole par région selon le genre en 2015 ............................................................... 10
Tableau 3 : Répartition de la Population agricole selon la situation de résidence par région en 2015 ............. 10
Tableau 4 : Répartition de la population agricole par tranche d’âge et par sexe en 2015 ............................... 11
Tableau 5 : Répartition de la population agricole par tranche d’âge et par Région en 2015 ......................... 11
Tableau 6 : Population agricole par tranche d’âge et selon la situation de résidence en 2015 ..................... 12
Tableau 7 : Pluviométrie décadaires enregistrées par station et par mois en 2015 ....................................... 15
Tableau 8 : Pluviométrie décadaires enregistrées par station et par mois en 2015 (suite) ............................ 16
Tableau 9 : Pluviométrie enregistrée par mois 2015 ......................................................................................... 17
Tableau 10 : Pluviométrie enregistrée par station en 2015 et sa comparaison à celle de 2014 et à la normale 18
Tableau 11 : Relevés mensuels de débits de la station de Banankoro en 2014 et 2015 .................................... 19
Tableau 12 : Relevés mensuels de débits de la station de Mopti en 2014 et 2015 .......................................... 20
Tableau 13 : Relevés mensuels des hauteurs d’eau de la station de Douna en 2014 et 2015 ...................... 21
Tableau 14 : Prélèvement d’eau pour l’agriculture en 2015 ......................................................................... 21
Tableau 15 : Cotes comparatives des hauteurs au 30 octobre 2015 sur quelques stations de référence en 2014 et 2015 .................................................................................................................. 22
Tableau 16 : Situation de la crue à la date du 30 octobre 2015 par rapport aux valeurs extrêmes ............... 22
Tableau 17 : Production céréalière du secteur traditionnel par région en 2015 ........................................ 24
Tableau 18 : Production céréalière du secteur moderne par région en 2015 ................................................ 24
Tableau 19 : Production céréalière de contre saison par région en 2015 ...................................................... 24
Tableau 20 : Production céréalière totale par région en 2015 ..................................................................... 25
Tableau 23 : Rendement des céréales dans le secteur traditionnel par région en 2015 ............................. 28
Tableau 24 : Production disponible en céréales ......................................................................................... 28
Tableau 25 : Superficies ensemencées des principales cultures (en hectare) Présenter les données en % Erreur ! Signet non défini.
Tableau 26 : Quantité d’engrais subventionnés placés auprès des producteurs en 2015 ............................ 29
Tableau 27 : Superficie, rendement et production des cultures légumineuses par région en 2015 ............ 31
Tableau 28 : Superficie, rendement et production des cultures de diversification par région en 2015 .......... 32
Tableau 29 : Superficie, rendement et production des légumes/feuilles par région en 2015 ......................... 33
Tableau 30 : Superficie, rendement et production des légumes/fruits par région en 2015 ......................... 33
Tableau 31 : Superficie, rendement et production des légumes/fruits par région en 2015 (suite) .................. 34
Tableau 32 : Superficie, rendement et production des légumes à bulbes et tubercules par région en 2015 .... 34
Tableau 33 : Superficie, rendement et production des légumes à bulbes, racines et tubercules par région en 2015 (suite) ......................................................................................................................... 35
Tableau 34 : Superficie, rendement et production des arbres fruitiers par région en 2014 .......................... 35
Tableau 35 : Superficie, rendement et production des arbres fruitiers par région en 2014 .......................... 36
Tableau 36 : Superficie, rendement et production des arbres fruitiers par région en 2015 (suite) ............... 36
Tableau 37 : Production de semences certifiées par culture et par type en 2015 ........................................ 38
Tableau 38 : Prix de vente des semences certifiées par culture en 2015 .................................................... 38
Tableau 39 : Récapitulatif des superficies prospectées, infestées et traitées par l’Office de Protection des Végétaux en 2014 et 2015 ................................................................................................................................. 38
Tableau 40 : Situation des produits phytosanitaires (pesticides) utilisés en 2015 ........................................ 40
Tableau 41 : Situation des appareils de traitement en 2015 ...................................................................... 40
Tableau 42 : Situation des stocks de pesticides en 2015 ............................................................................ 40
Tableau 43 : Résultats de prospection et de traitement des magasins et banques de céréales en 2015 ....... 41
Tableau 44 : Situation stocks de pesticides en 2015 .................................................................................. 41
Tableau 45 : Situation des appareils de traitement en 2015 ...................................................................... 41
Tableau 46 : Situation des superficies prospectées et infestées en 2015 .................................................... 41
Tableau 47 Situation des magasins de stockage en 2015 ........................................................................... 41
Tableau 48 : Production de plants fruitiers en 2015 .................................................................................... 42
Tableau 49 : Réalisation de plantation d’arbres fruitiers (vergers) ................................................................. 42
Tableau 50 : Réalisation des superficies, rendements et productions de cultures en 2015 ....................... 43
Tableau 51 : Réalisation de production de miel et cire par localité en 2015 ................................................. 44
Tableau 52 : Réalisation des mesures DRS/CES en 2015 .......................................................................... 45
Tableau 53 : Types de plantations en 2015 ................................................................................................. 45
Tableau 54 : Réalisation de superficies, rendements et de productions de coton conventionnel en 2015 .... 45
Tableau 55 : Situation des matériels agricoles existants dans la zone OHVN en 2015 ......................... 45
Tableau 56 : Synthèse des résultats de production des céréales et légumineuses de contre saison dans la zone OHVN en 2015 ................................................................................................................ 46

3
Tableau 57 : Situation d’embravure, de rendement et de production horticole (maraichage) en zone OPIB en 2015... 47
Tableau 58 : Production des mangues par variété en zone OPIB en 2014 et 2015.......................................................... 47
Tableau 59 : Production de riz de saison par système en zone OPIB en 2015.................................................. 48
Tableau 60 : Productions des céréales et de légumineuses de la saison d’hivernage en Zone OPIB en 2015........ 48
Tableau 61 : Répartition des attributaires et des superficies par genre en zone OPIB en 2015................................. 48
Tableau 62 : Répartition des superficies par type d’attribution et par genre en zone OPIB en 2015................. 49
Tableau 63 : Situation du nombre d’exploitants hommes, femmes attributaires en zone OPIB...................... 49
Tableau 64 : Situation des équipements agricoles en Zone OPIB en 2009 et 2015.............................................. 49
Tableau 65 : Situation de la mise en place des semences certifiées par la coopérative des semenciers de Baguinéda en 2015.................................................................................................................. 50
Tableau 67 : Coût de production du kilogramme des principales cultures en zone OPIB................................. 50
Tableau 68 : Prix moyen mensuel des principaux produits dans le marché de Soundougouba en 2015....... 51
Tableau 69 : Superficie, rendement et production de riz en zone ORM en 2015........................................... 52
Tableau 70 : Superficie, rendement et production de céréales sèches en zone ORM en 2015.................. 53
Tableau 71 : Situation des attributions de parcelles dans les casiers en 2015.................................................. 53
Tableau 72 : Superficie, rendement et production des légumes en zone ORM en 2015............................ 54
Tableau 73 : Superficies, rendements et productions de riz en zone ODRS en 2015............................... 54
Tableau 74 : Superficies, rendements et productions du maïs en zone ODRS en 2015.......................... 55
Tableau 75 : Superficies, rendements et productions d’autres cultures sèches en zone ODRS en 2015...... 55
Tableau 76 : Superficies, rendements et productions de légumineuses en zone ODRS en 2015.............. 55
Tableau 77 : Superficie, rendement et production des cultures de maraîchage en zone ODRS en 2015...... 56
Tableau 78 : Réattribution de parcelles au niveau du Périmètre de Maninkoura en 2015............................ 56
Tableau 79 : Situation des attributaires de parcelles par spéculation en zone ODRS en 2015...................... 57
Tableau 80 : Prévisions et réalisations de la production de riz de la saison en casier et hors casiers en zone ON en 2015 ........................................................................................................................................ 58
Tableau 81 : Prévisions et réalisations des cultures de maraîchage et de diversification en zone ON en 2015...... 60
Tableau 82 : Prévisions et réalisations des cultures de maraîchage et de diversification en zone ON en 2015 (suite). 61
Tableau 83 : Situation des attributions des parcelles de riz en zone ORS en 2015............................................. 62
Tableau 84 : Situation d’utilisation des semences améliorées de riz en zone ORS en 2015......................... 62
Tableau 85 : Situation d’utilisation des semences améliorées de mil/sorgho en zone ORS en 2015............ 63
Tableau 86 : Superficies, rendements et productions de céréales en zone ORS de 2012 à 2015.............. 63
Tableau 87 : Production des légumineuses alimentaires, tubercule et fruit en en zone ORS en 2015 ....................... 64
Tableau 88 : Principales productions de cueillette en zone ORS en 2015 ............................................................. 64
Tableau 89 : Superficie, rendement et production des cultures de maraichage en zone ORS en 2015..................... 64
Tableau 90 : Evolution des aménagements hydro agricoles au mali de 2013 à 2015 ........................................... 65
Tableau 91 : Situation des machines et équipements agricoles en service en 2014 et 2015 ................................. 66
Tableau 92 : Valeur des machines et équipements agricoles en service en 2014 et 2015 ............................... 66
Tableau 93 : Evolution des effectifs du cheptel par espèce de 2005 à 2015 ......................................................... 68
Tableau 94 : Effectifs du cheptel par espèce et par région en 2015 ................................................................. 68
Tableau 95 : Situation de la possession relative du cheptel par régions en 2015 ................................................ 69
Tableau 96 : Infrastructures de production, de transformation, de commercialisation et de conservation/ stockage des produits animaux en 2015 .................................................................................................................. 69
Tableau 97 : Abattage du cheptel et de la volaille par espèces et par région en 2015 ............................................. 71
Tableau 98 : Abattages contrôlés du cheptel par centre dans le District de Bamako en 2015 ............................. 72
Tableau 99 : Situation de l’embouche des animaux par espèces et par région en 2015 ....................................... 72
Tableau 100 : Situation de l’approvisionnement de marchés, de la vente du bétail et de la volaille par région et selon les espèces en 2015 ......................................................................................................................... 73
Tableau 101 : Prix moyens des animaux vendus par espèce et par région en 2015 ................................................. 74
Tableau 102 : Exportations contrôlées d’animaux vivants par région et par espèce ........................................... 75
Tableau 103 : Exportation contrôlée d’animaux par pays de destination en 2015 ................................................ 75
Tableau 104 : Production des cuirs et peaux par région en 2015 ............................................................................ 75
Tableau 105 : Prix moyens de rétrocession des cuirs et peaux par région selon la pièce en 2015 ......................... 76
Tableau 106 : Exportation contrôlée des cuirs et peaux par région en 2015 ......................................................... 76
Tableau 107 : Effectifs des lactantes par espèces et par région en 2015 ............................................................. 76
Tableau 108 : Production protentielle de lait obtenue par espèces et par région en 2015 ............................. 77
Tableau 109 : Production de lait estimée par espèces et par région en 2015 ...................................................... 77
Tableau 110 : Production d’œufs et de poulets de chair par région en 2015 ...................................................... 77
Tableau 111 : Situation centre de collecte du lait par région en 2015 .............................................................. 78
Tableau 112 : Unités de productions d’aliment bétail par localité en 2015 ......................................................... 78
Tableau 113 : Situation évolutive de la biomasse des pâturages naturels par Région de 2011 à 2015 ............... 78
Tableau 114 : Foyers de maladies enregistrés par région en 2015 ................................................................. 79
Tableau 115 : Contrôle des animaux à l’exportation par espèces et par région en 2015 .............................. 79
Tableau 116 : Contrôle effectué sur les animaux vivants et les œufs à l’importation par région selon la provenance en 2015 ................................................................. 80
Tableau 117 : Vaccinations des animaux effectuées par type de maladies selon les secteurs en 2015 ........... 80
Tableau 118 : Contrôles effectués au niveau des vétérinaires titulaires de mandat sanitaire par région en 2015 .... 81
Tableau 119 : Contrôle des établissements vétérinaires et établissements pharmaceutiques vétérinaires par région en 2015 ........................................................................................................ 81
Tableau 120 : Effectifs des animaux vaccinés contre les maladies par type et par région en 2015 ............ 83
Tableau 121 : Contrôle à l’importation des produits et denrées alimentaires d’origine animale par région en 2015 ...... 84
Tableau 122 : Contrôle à l’exportation des produits et denrées alimentaires d’origine animale par région en 2015 .... 84
Tableau 123 : Situation des doses de vaccins produits par type par le Laboratoire Central Vétérinaire en 2015....... 85
Tableau 124 : Débarquements contrôlés de poissons par région en 2015 .................................................. 87
Tableau 125 : Production d’alevins en 2015 ................................................................................................. 87
Tableau 126 : Exportation de Poissons enregistrée par la Direction Nationale de la Pêche en 2015 ............... 87
Tableau 127 : Production de poisson de pisciculture par région en 2015 ................................................. 87
Tableau 128 : Situation des mises en défens par région en 2015 ................................................................. 88
Tableau 129 : Placement des permis de pêche par catégorie et par région en 2015 ............................... 88
Tableau 130 : Recette des placements des permis de pêche par région en 2015 .......................................... 88
Tableau 131 : Récapitulatif des permis d’exploitation et de la production des bois de chauffe et charbon de bois par région en 2015 ................................................................. 89
Tableau 132 : Situation de reboisement et des productions de plants ............................................................ 89
Tableau 133 : Evolution de superficie de forêts classées par région de 2003 à 2015 ................................. 90
Tableau 134 : Situation de permis de chasse délivré par région en 2015 ..................................................... 90
Tableau 135 : Situation des permis et superficie défrichée par région en 2015 ............................................ 90
Tableau 136 : Situation des feux de brousse tardifs et superficies brûlées par région en 2015 ....................... 91
Tableau 137 : Evolution des prélèvements de bois d’œuvre par région de 2013 à 2015 ............................ 91
Tableau 138 : Evolution de la délivrance de permis de chasse par région de 2013 à 2015 ............................ 91
Tableau 139 : Evolution des superficies reboisées de 2011 à 2015 ............................................................ 92
Tableau 140 : Situation des Réserves de faunes par région en 2015 .............................................................. 92
Tableau 141 : Récapitulatif des infractions par région en 2015 .................................................................... 92
Tableau 142 : Permis/Certificats délivrés pour l’exportation des espèces en 2015 ................................. 92
Tableau 143 : Permis/Certificats délivrés pour la réexportation des espèces en 2015 ............................... 93
Tableau 144 : Permis/Certificats CITES délivrés (espèces et destinations) en 2015 ................................. 93
Tableau 145 : Récapitulatif de la situation des quotas d’exportation des spécimens CITES en 2015 ...................... 93
Tableau 146 : Statistiques forestières de 2014 et 2015 ......................................................................................... 94
Tableau 147 : Situation des produits forestiers non ligneux par région en 2015 ................................................. 94
Tableau 149 : Evolution du stock d’intervention de l’Etat en riz par région en 2015 ........................................ 96
Tableau 150 : Situation du stock des produits PAM par région en 2014 et 2015 .............................................. 97
Tableau 151 : Distributions Alimentaires Gratuites par région 2015 ................................................................. 97
Tableau 152 : Situation des communes vulnérables par région selon le genre en 2015 ................................. 103
Tableau 153 : Equivalence en céréales (mil, sorgho, maïs) du prix moyen de la chèvre par mois sur les marchés des chefs-lieux de cercle en 2015 ........................................................................................................ 117
Tableau 154 : Etat nutritionnel des enfants âgés de 0 à 5 ans et des femmes en l’âge de procréer par période en 2015 ......................................................................................................................... 127
Tableau 155 : Intentions d’importation des produits alimentaires en 2015 ......................................................... 129
Tableau 156 : Evolution des prix moyens mensuels des produits de premières nécessités en 2015 ............. 129
Tableau 157 : Prix moyens mensuels à la production et à la consommation des quantités des céréales sèches 2015 .................................................................................................................................................. 130
Tableau 158 : Quantités entrées par campagne sur les marchés de gros en 2014 et 2015 ............................. 130
Tableau 159 : Quantités de céréales vendues par les producteurs par campagne en 2014 et 2015 ............. 130
Tableau 160 : Flux transfrontaliers des produits en 2015 ............................................................................... 131
PREAMBULE

Le présent annuaire statistique entre dans le cadre de la mission assignée à la cellule de planification et de statistique (CPS/SDR) du secteur du développement rural créée par la loi N°07 -020 du 27 février 2007,

Au terme de cette loi, la CPS/SDR assure avec les services techniques concernés, la mission de planification et d’information statistique dans les domaines couverts par le secteur du développement rural,

Les missions suivantes sont assignées à la CPS/SDR suivant la loi :
- Coordonner la préparation des plans, programmes et projets ainsi que l’analyse des politiques et stratégies ;
- Suivre et évaluer les plans et projets de développement sectoriels et veiller à leur cohérence intra sectoriel et spatial ;
- Elaborer les prévisions et suivre l’environnement et la conjoncture ;
- Suivre les dossiers relatifs au financement et à la coopération technique ;
- Coordonner en rapport avec les services chargés des ressources humaines, le programme de formation en matière de planification et de statistique ;
- Coordonner la production d’informations statistiques et la réalisation d’études de base ainsi que la diffusion de leurs résultats ;
- Mettre en place et gérer la base de données du secteur,

De manière spécifique le décret N 07-166/P-RM du 28 Mai 2007 fixant l’organisation et les modalités de fonctionnement des cellules de planification et de statistique a assigné à l’unité statistique les missions suivantes :
1 Identifier et formuler les besoins en informations statistiques et études de base du secteur ;
2, Coordonner et réaliser les études de base sectorielle ;
3, Collecter, centraliser et traiter les données statistiques provenant des services centraux sectoriels ;
4, Contribuer à la définition des normes et outils statistiques du secteur ;
5, Elaborer un annuaire statistique du secteur,

En conformité avec les missions de l’unité statistique relatives à la collecte, la centralisation et le traitement des données statistiques, l’élaboration de l’annuaire statistique vise à mettre à la disposition des utilisateurs, en particulier les décideurs, partenaires techniques et financiers, chercheurs, étudiants etc, les données statistiques qui alimentent leurs prises de décisions,
Les informations sont collectées auprès des structures techniques du secteur du développement rural et portent entre autres sur : la population, la pluviométrie et l’hydrologie, l’agriculture, l’élevage, la pêche, la foresterie, la sécurité alimentaire et les informations socio-économiques,

Cependant, ce document peut être amélioré tant dans la forme que dans le fond, A cet effet, nous encourageons les utilisateurs à nous faire parvenir toutes suggestions, remarques et critiques pour l’amélioration des versions ultérieures,
